BY AUTHOR

Abdul-Raheem, Mahmoud Y.

Predicted and Measured Air Exchange Rates. P. 42. August.

Angle, Steven L.

Commissioning Lab Buildings. P. 49. November.

Applebaum, Martin A.

450 Golden Gate Project: BACnet's™ First Large-Scale Test. P. 23. July.

Avery, Gil

Controlling Chillers in Variable Flow Systems. P. 42. February.

Baxter, Van

Global Warming Implications of Replacing Ozone-Depleting Refrigerants. P. 23. September.

Berbari, George J.

Fresh Air Treatment in Hot and Humid Climates. P. 64. October.

Berglund, Larry G.

Comfort and Humidity. P. 35. August.

Boody, Harry John

Total Systems Design. P. 50. August.

Bouhamra, Walid S.

Predicted and Measured Air Exchange Rates. P. 42. August.

Brambley, Michael

Diagnostics for Outdoor Air Ventilation and Economizers. P. 49. October.

Burns, Patrick J.

The Energy Impact of Daylighting. P. 31. May.

Burroughs, H. E. Barney

Improved Filtration in Residential Environments. P. 47. June.

Bushby, Steven T.

450 Golden Gate Project: BACnet's™ First Large-Scale Test. P. 23. July.

Bushby, Steven T.

Communication Gateways: Friend or Foe? P. 50. April.

Byrns, George

Dental Ventilation Theory and Applications. P. 48. February.

Callaway, Cynthia A.

Retrofit for Large Office Building. P. 60. November.

Carmichael, Laurence

Automated Control in Response to Real-Time Pricing. P. 26. November.

Chassin, David

Diagnostics for Outdoor Air Ventilation and Economizers. P. 49. October.

Collins, Michael

Comparing Gas-Engine Cooling Systems: R-134a vs. R-22. P. 65. March.

Cook, Jeffrey

Designing Ventilation with Heating: Natural History Museum in 1873 London. P. 44. April.

Davis, Kevin L.

Retrofit for Large Office Building. P. 60. November.

Dawson, Jim

Retrofit at Art Museum. P. 43. September.

Dinse, David R.

Geothermal System for School. P. 52. May.

Elkilani, Amal S.

Predicted and Measured Air Exchange Rates. P. 42. August.

Evans, Wayne S.

Ice Storage Cooling for Campus Expansion. P. 66. April.

Fischer, Steve

Global Warming Implications of Replacing Ozone-Depleting Refrigerants. P. 23. September.

Fredericks, Chris W. A.

Retrofit at Art Museum. P. 43. September.

Gabel, Steven D.

Automated Control in Response to Real-Time Pricing. P. 26. November.

Gage, Cynthia

Reducing Refrigerant Emissions from Supermarket Systems. P. 32. November.

Gladstone, John

John Gorrie, The Visionary. P. 29. December.

Guenther, Frank

Solving Noise Control Problems. P. 34. February.

Guntermann, Alfred E.

Refrigeration System Replacement in a Manufacturing Operation. P. 49. September.

Haakenstad, Larry K.

Using Native BACnet™ Systems in Open Protocol Installations. P. 57. March.

Haberl, J. S.

The Great Energy Predictor Shootout II: Measuring Retrofit Savings. P. 49. January.

Hatley, Darrel

Diagnostics for Outdoor Air Ventilation and Economizers. P. 49. October.

Hedrick, Roger L.

Dehumidification Issues of Standard 62-1989. P. 71. March.

Henderson, Jr., Hugh I.

Comparing Gas-Engine Cooling Systems: R-134a vs. R-22. P. 65. March.

Hittle, Douglas C.

The Energy Impact of Daylighting. P. 31. May.

House, John M.

Volume Matching Control: Leave the Outdoor Air Damper Wide Open. P. 58. February.

INDEX OF 1998 FEATURE ARTICLES

Jackins, George A.

ASHRAE's Bridges to the Future. P. 30. August.

Joyce, Charles T.

Gas-Phase Contamination Control for Semiconductor Clean Rooms. P. 46. August.

Katipamula, Srinivas

Diagnostics for Outdoor Air Ventilation and Economizers. P. 49. October.

Kavanaugh, Steve

Ground Source Heat Pumps: Simple, Efficient, Reliable. P. 31. October.

Kettler, John P.

Controlling Minimum Ventilation Volume in VAV Systems. P. 45. May.

Khattar, Mukesh

Critical Supermarket Issues. P. 57. June.

Khawja, Habib U.

A Low-Cost, High Performance Lab HVAC Design. P. 39. September.

Kilkis, İ.B.

Equipment Oversizing Issues with Hydronic Heating Systems. P. 25. January.

Kinzer, Kevin E.

Improved Filtration in Residential Environments. P. 47. June.

Kirsner, Wayne

Designing for 42°F Chilled Water Supply Temperature: Does It Save Money? P. 37. January.

Klaasen, Curtis J.

Volume Matching Control: Leave the Outdoor Air Damper Wide Open. P. 58. February.

Kosar, Douglas R.

Dehumidification Issues of Standard 62-1989. P. 71. March.

MacCracken, Mark

Thermal Storage and Deregulation. P. 55. April.

Mayes, Scott E.

Using Ozone for Water Treatment. P. 39. May.

Mays, Mark

Identifying Noise Problems in Adjustable Speed Drives. P. 57. October.

McCarry, Blair

Innovative Underfloor Systems. P. 76. March.

McGahey, Kevin

New Commercial Applications for Desiccant-Based Cooling. P. 41. July.

McHugh, Jonathan

The Energy Impact of Daylighting. P. 31. May.

Mitchell, John W.

Energy Savings from Pump Impeller Trimming. P. 60. April.

Montgomery, Ross D.

Ice Storage System for School Complex. P. 52. July.

Nagengast, Bernard A.

History of Sealed Refrigeration Systems, Part 3. P. 43. January.

Nehzati, Arman

Retrofit for Large Office Building. P. 60. November.

Ninomura, Paul T.

Dental Ventilation Theory and Applications. P. 48. February.

O'Donnell, Brian

Energy Retrofit of Aircraft Hangar Facility. P. 48. December.

Patel, Jignesh

Comparing Gas-Engine Cooling Systems: R-134a vs. R-22. P. 65. March.

Pratt, Robert

Diagnostics for Outdoor Air Ventilation and Economizers. P. 49. October.

Rishel, James B.

Proper Control of HVAC Variable Speed Pumps. P. 41. November.

Ruisinger, Tom

Using Ozone for Water Treatment. P. 39. May.

Sand, James R.

Global Warming Implications of Replacing Ozone-Depleting Refrigerants. P. 23. September.

Sauer, Jr., Harry J.

Outside Air Ventilation Control and Monitoring. P. 31. January.

Schroeder, Gary F.

Energy Management Impact in a Small Office Building. P. 41. December.

Schwedler, Mick

Take It to the Limit or Just Halfway? P. 32. July.

Seem, John E.

Volume Matching Control: Leave the Outdoor Air Damper Wide Open. P. 58. February.

Shavit, Gideon

Automated Control in Response to Real-Time Pricing. P. 26. November.

Shirey, Don B.

Dehumidification Issues of Standard 62-1989. P. 71. March.

Silvetti, Brian

Thermal Storage and Deregulation. P. 55. April.

Singh, Gurminder

Energy Savings from Pump Impeller Trimming. P. 60. April.

Stanke, Dennis A.

Ventilation Where It's Needed. P. 39. October.

Stewart, Jr., William E.

Turbine Inlet Air Cooling. P. 32. September.

Taillie, William P.

Boiler Control Retrofit at Convent. P. 56. November.

Tillack, Larry

Proper Control of HVAC Variable Speed Pumps. P. 41. November.

Todesco, Guiliano

Efficiency Through Design Integration. P. 52. June.

INDEX OF 1998 FEATURE ARTICLES

Tom, Steven T.

Using Native BACnet™ Systems in Open Protocol Installations. P. 57. March.

Towell, Robert L.

HVAC for Domed Stadium. P. 47. July.

Troy, Gene

Reducing Refrigerant Emissions from Supermarket Systems. P. 32. November.

Utterson, Eric G.

Outside Air Ventilation Control and Monitoring. P. 31. January.

Varley, John O.

Applying Process Hazard Analysis to Laboratory HVAC Design. P. 54. February.

Webb, William A.

Zoned Smoke Control Applications. P. 36. December.

Witte, Michael J.

Dehumidification Issues of Standard 62-1989. P. 71. March.

Wolpert, Jack S.

Energy Management Impact in a Small Office Building. P. 41. December.

BY SUBJECT

Aerosols

Dental Ventilation Theory and Applications. Paul T. Ninomura, George Byrns. P. 48. February.

Air Exchange

Predicted and Measured Air Exchange Rates. Walid S. Bouhamra, Amal S. Elkilani, Mahmoud Y. Abdul-Raheem. P. 42. August.

Air Conditioning

Applying Process Hazard Analysis to Laboratory HV, C Design. John O. Varley. P. 54. February.
Ice Storage Cooling for Campus Expansion. Wayne S. Evans. P. 66. April.
John Gorrie, The Visionary. John Gladstone. P. 29. December.
New Commercial Applications for Des-

iccant-Based Cooling. Kevin McGahey. P. 41. July.

Thermal Storage and Deregulation. Brian Silveti, Mark MacCracken. P. 55. April.

Air Cooling

Turbine Inlet Air Cooling. William E. Stewart, Jr. P. 32. September.

Air-Handling Units

Volume Matching Control: Leave the Outdoor Air Damper Wide Open. John E. Seem, John M. House, Curtis J. Klaasen. P. 58. February.

Air Leakage

Predicted and Measured Air Exchange Rates. Walid S. Bouhamra, Amal S. Elkilani, Mahmoud Y. Abdul-Raheem. P. 42. August.

Architectural Design

Efficiency through Design Integration. Guiliano Todesco. P. 52. June.

BACnet

450 Golden Gate Project: BACnet's™ First Large-Scale Test. Martin A. Applebaum, Steven T. Bushby. P. 23. July.

Communication Gateways: Friend or Foe? Steven T. Bushby. P. 50. April.

Using Native BACnet™ Systems in Open Protocol Installations. Larry K. Haakenstad, Steven T. Tom. P. 57. March.

Biocides

Using Ozone for Water Treatment. Scott E. Mayes, Tom Ruisinger. P. 39. May.

Boilers

Boiler Control Retrofit at Convent. William P. Taillie. P. 56. November.

Building Management

450 Golden Gate Project: BACnet's™ First Large-Scale Test. Martin A. Applebaum, Steven T. Bushby. P. 23. July.

Automated Control in Response to Real-Time Pricing. Steven D. Gabel, Laurence Carmichael, Gideon Shavit. P. 26. November.

Communication Gateways: Friend or Foe? Steven T. Bushby. P. 50. April.
